AVAILABLE LEATHER INLAYS: Black, Navy Blue, Hunter Green, Oxblood, Brown, Taupe.

AVAILABLE FINISHES: All standard stains plus custom colors available.

Description: Finally, the perfect custom made sit-stand adjustable height executive office desk. This unique one-of-a-kind **Executive Style** desk offers many features that will please even the most discriminating executive. The first, and to the best of our knowledge, the only sit-stand executive desk on the market today made of 100% real wood. It is available in 6', 6'6" and 7' lengths. Normal depth is 32" additional depths are available up to 42". The center drawer is attached to the desktop so it rises with the desktop. The removable footrest rail lifts out and can be easily set aside for when you are using your desk in the full down (sitting) position. All drawers have heavy duty pull out full extension gliders so you can get to the very back of the drawers with ease. Unlike our other standing executive desks which disassemble rather easily, this desk can be disassembled however, it is not easy. Being only 30 inches tall in the sit-down position it should be able to be carried in sideways through most doorways. Please check your doorway and hallway measurements.

Our Sit-Stand Executive is available with raised or reverse panels on the front and sides of the desk including the privacy panel, plus extra wide carved fluted corner moldings. We also offer matching, solid wood bookcases, credenzas and filing cabinets.

WARNING: Our Sit-Stand Executive is not for children. **It is not "child proof"**. Please always make sure your fingers (or somebody else's) are not between the descending desk-top and the desk body. Doing so

will hurt...a lot! We can not be held responsible for stupid behavior. So if you can not follow the following rules you are asked to please do not order this desk.

Rule #1: You agree to always make sure your hand is not between the descending desk-top and the body of the desk. (This is not hard to achieve as seen in the demonstration video)

Rule #2: Make sure no one else's hands or fingers are between the descending desk-top and the body of the desk. (It would be hard to believe someone would be that (I don't want to use the word stupid, OK,) CARELESS, but in today's world, you never know.

Rule #3: Do not allow children to play with the control panel of this desk. Unplug the desk if you have unsupervised mischievous children exposed to this desk when you are not around.

ADDITIONAL WARNING: We do not know exactly how much it would hurt to deliberately put your hand or fingers underneath the descending desk-top because, well, we are not that stupid! We thought about putting a scale there but NOTHING is supposed to interfere with the workings of these hydraulic mechanisms and we didn't want to damage one just to find out. We know they can lift a lot! Over 250 pounds! The space underneath the desk-top is not for storage of anything thicker than perhaps a magazine.

LAST BUT NOT LEAST: There is nothing else on the market today that compares to the beauty and quality that goes into the production of this finely crafted piece of furniture. As we are sure you have discovered by now, if you have looked around, there are a lot of sit-stand TABLES but not DESKS. You will also notice the manufacturers of these sit-stand tables refer to there table as a desk. If you are looking for a sit-stand executive desk, you have found the finest one known on the market. If you know or find a nicer one, please drop us a line and let us know about it, as we would love to see it. We do not wish to make any false claims. Be sure and watch the demo video below.

Need help configuring your desk?

Let us find the perfect **wood**, and/ or leather **inlay** to make your Executive Sit-Stand Desk a one of a kind masterpiece.
